

ABSTRACT

- Add content here
- ☐ This template is designed by considering the best fit for most of the scientific research work. The space allotted for various sections will match to most of the works. However for few works, the presenters can change it suitably. Column width of Results section is more, so that figures and tables can be added appropriately.
 - ☐ Headings and Layout can be changed as per requirement
 - ☐ Figures, Tables and photos can be added as per need
 - ☐ No logos, photos, figures should be stretch or compressed unevenly.
 - ☐ Authors are suggested NOT to change the heading and background colors
 - ☐ Please DO NOT Change the poster size. For Publishing Proceedings, we are using same poster size.
 - ☐ Use Calibri 10 font
 - ☐ Line spacing can be adjusted from 1.0 to 1.3 as per need
 - ☐ Current line spacing is 1.0
 - ☐ The content of the poster should be according to title scope of the poster.
 - ☐ Remove these figures before converting to PDF
